Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Information Disclosure Statement

The IDS received on 3/3/03 was without form PTO-1449, references were considered and consideration is noted on form PTO-892 attached herewith.

Allowable Subject Matter

Claims 1-34 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 10, 19 and 26, the prior art of record teaches a handheld apparatus having one or more output devices including a rasterized visual display that present output to an operator, one or more input devices including an array of switches that receive input from the operator, a wireless transmitter, and processing circuitry that controls operation of the one or more output devices, the one or more input devices and the wireless transmitter. However, the prior art of record fails to specifically disclose presenting information through the rasterized visual display to the operator that assists the operator in controlling the operation of the handheld apparatus; providing through the one or more output devices to the operator a presentation of a representation of first content; receiving through the one or more input devices from the operator a second content that overlaps in time the presentation of first content according to a temporal relationship controlled by the operator and an identification of one or more recipients; and sending through the wireless transmitter a representation of the second content and identification of one or more recipients to a remote server that is separated in

Art Unit: 2684

space from the handheld apparatus, and causing the remote server to send to the one or more recipients a message representing the first content and the second content arranged according to the temporal relationship.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
